

Writing-Bird

Handwriting Aid

A unique handwriting device by Achieva for people with limited hand control, particularly those lacking thumb to fingertip pinch. Only a slight downward pressure is needed to write.

The Writing-Bird is ideal for people with limited hand coordination, dexterity or a weak grasp including those with arthritis or neurological disorders. The device is made from durable, frosted acrylic and is designed to fit comfortably into the left or right hand.

How to use: Place the included pen, or any narrow pen, pencil or felt-tip pen into the hole, ensuring the tip is level with the bottom of the device. Use the provided screw to hold the pen securely in place. To use, place a palm over the device and slide it around on paper to write or draw.

Dimensions: 4.5cm x 6.8cm x 15.4cm
